Campaign Spending: [List of Filers](#)

The need for effective leadership and calm clear thinking has never been greater. By changing laws and finding cures “Governor” Bradley Hara, will close the growing gap between the rich and the poor: And make Hawaii The Sweet Spot of The World.

I will build a thirty three thousand dollar (\$33,000.00) Safety Net for our poor people starting with girls 10+ and boys 13+, handi-capped and seniors. This \$33,000.00 a year safety net will give all who qualify, the money they need to buy what they need, in order to advance their respective health, education, welfare and safety agendas. This Sweet Spot Relief Program will raise our standards of living, increase the literacy rate and practically eliminate poverty in this State. Especially the Poverty of our imagination, creativity and innovation.

Lower the voting age to thirteen (13) years old. This will change the political fabric of majority rules. It will empower our Seventh Graders + in deciding what really goes on in this State. Our 13+ will grow up faster by making grown up decisions sooner. By forging their moral constitution early in life, they will learn to be the master of money and not let money be their master. They will be held accountable for their own behavior and must take the consequences for the results of their respective wrong and hurtful actions. It shall be clearly understood that there will be consequences for all the choices you make in life.
